ABOUT ME

Final-year Computer Science and Engineering student specializing in AI/ML with hands-on experience in building and deploying intelligent systems. Skilled in Python, Java, FastAPI, and Docker with a solid foundation in algorithms, system design, and scalable backend development. Passionate about applying AI/ML to solve real-world problems and eager to contribute as a software/ML engineer.

EDUCATION

Vasavi College of Engineering **2022 – 2026**
*B.E. in Computer Science and Engineering — **CGPA: 8.02*** *Hyderabad, India*

INTERNSHIPS & EXPERIENCE

AscendSoft Private Limited **July 2025 – Present**
Trainee Software Engineer *Bengaluru, India*

- Developed and trained **7 stock price prediction models** (**XGBoost, LightGBM, LSTM, GRU, CNN-LSTM, Prophet, TFT**) on financial time-series data.
- Integrated **news sentiment features** with model predictions, using weights assigned by a **reinforcement learning (RL) agent** trained on market sentiment.
- Implemented an **RL-based aggregator engine** that dynamically selects or ensembles models based on **market conditions and backtested performance.**
- Built a complete **stock prediction pipeline** with CLI and **FastAPI microservices**, supporting REST endpoints for real-time predictions.

SKILLS

Programming Languages: Python, Java, C, C++
Web Development: Node.js, Express.js, React.js, JavaScript, HTML5, CSS3
Databases: MySQL, MongoDB, Firebase, Supabase
AI/ML Tools: TensorFlow, Keras, Transformers, Seaborn, Matplotlib, CrewAI, LangGraph, Langchain
Software Engineering: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks
Other Tools: Git, Docker

PROJECTS

SaiNoCode AI – VS Code Extension | TypeScript, LangGraph, FastAPI, Supabase, Qdrant **2025**

- Built a **multi-agent AI coding assistant** for VS Code with 11 agents handling planning, refactoring, and debugging.
- Implemented **LangGraph orchestration** and **OpenRouter-based model routing** for context-aware code generation with integrated memory system.

Hotel Booking System | React.js, Node.js, Express.js, MongoDB **2024**

- Developed a **MERN-based hotel booking app** with authentication, CRUD operations, and admin dashboards.
- Enabled users to list or book stays seamlessly with secure database integration, similar to Airbnb.

AI-Powered PDF Intelligence WebApp | React, FastAPI, Gemini API, Azure TTS, FAISS **2025**

- Built an **AI-driven PDF platform** for Adobe Hackathon 2025 featuring chat, semantic search, and voice-based summaries.
- Combined **Gemini API**, **FAISS**, and **Azure TTS** for contextual, multimodal document exploration.

CERTIFICATIONS

Python Certification – Cisco Networking Academy **C – NPTEL** **PowerBI – OfficeMaster**

ACHIEVEMENTS

- Finalist in **Adobe India Hackathon 2025**.
- Enhanced **problem-solving and algorithmic skills** through active engagement in competitive programming.
